ENHANCING CURRICULA

Employers report an increasing mismatch between the skills required for entry into their industry and those of the emerging workforce. Talent Bound aims to provide all young people access to authentic work-based learning experiences that are designed to increase informed decision making in college and careers and develop critical skills needed to succeed in the future of work.

Work-based learning (WBL) occurs on a continuum of educational growth for students, simultaneously benefitting employers through meaningful activities with future talent.
